The Bosque Learning Center (BLC) and Tutoring Support

The **Bosque Learning Center (BLC)** is a year round academic support program for Bosque students in both the middle and upper schools. The BLC was developed to provide high quality tutoring for students at various degrees of need at a reasonable cost. The program is open to students with learning differences but is also available to other students who may experience a persistent academic challenge in a particular subject area.

Some challenges are particularly troublesome to students during the move to distance learning. **Bosque Learning Center tutors can help with:**

- Reviewing concepts that are difficult or not making sense in any subject area
- Composing emails that ask the right questions in the right ways
- Developing daily schedules and or checklists
- Organizing emails and Google Classroom tasks into prioritized work plans
- Composing written work by talking through concepts and developing main ideas
- Ensuring that students do not fall behind in their weekly assignments

**Bosque Tutors can help parents to:**

1. Make sure your student is reading emails and checking Google Classroom at least every morning and every afternoon. To read with them, or talk about what's new as much as possible. To encourage each student to reply to teachers as needed, and write out or type out a work plan, divided into subjects, for every day of the week.
2. Determine if your student is not sure what is expected in a subject area, or says that nothing is expected. Then to help parents in having their students compose an email to ask/confirm with the teacher.
3. Help parents with their students in estimating how much time different tasks will take, and use timers to create work "bursts" if it's hard to stay focused or motivated.
4. Assist students in helping them filter/clear out email messages that are weighing down their inboxes.
5. Enforce a structured daily schedule that involves work blocks, activity blocks, self care and home care, and free time/screen time.

Please let me know if you would like to arrange any tutoring support. I can be contacted through my Bosque email at [clint.montgomery@bosqueschool.org](mailto:clint.montgomery@bosqueschool.org) or through texting at 860-307-4212.

Clint Montgomery, Director
Bosque Learning Center
